

**Introductory Pharmacy Practice Experience (IPPE)
Student Log
Community Practice**

Use the grid below to record a minimum of one example of prescription processed (P) by you or observed (O) by you (i.e., you observed your preceptor processing the Rx) each day. Use additional sheets if necessary

Prescription Processing					
Drug name (Brand/generic)	Dose/ frequency	Sig	Special instructions/auxiliary labels	Counseling required	O or P

Job Description of Pharmacy Personnel: Provide a brief description of various personnel at the site:

Role	Description	Number of personnel of this type
Pharmacist In Charge		
Pharmacist (day)		
Pharmacist (evening)		

Pharmacist (any other special shift or role)		
Technician		
Clerk		
Manager		

Other (describe role)		
------------------------------	--	--

Describe below the general workflow of the pharmacy prescription processing from receipt of prescription to dispensing to patient:

Patient Counseling:

Record one example of an Rx product counseling session in which you participated:

Drug	Indication	Counseling provided (how to take, dose, special instructions, drug interactions, side effects, etc.)

Provide one example of an OTC product counseling session in which you participated

Drug	Indication	Counseling provided (how to take, dose, special instructions, drug interactions, side effects, etc.)

References available at the site (please list):

Drug Information Questions: (exact question to be assigned by preceptor)

Record exact question assigned and your response; indicate where you found the answer/references used.

Drug interactions between two or more medications	
Question	Response
Can a medication be crushed?	
Medication	Response
What is the dose of a medication for a specific indication?	
Question (medication and indication)	Response (dose)
What are the special handling or storage concerns of a particular medication?	
Medication	Handling or storage concerns

Please insert any copies of education materials or other written projects you complete on rotation or copies of any additional materials that you feel document your interventions or activities while on rotation.

Please check the activities below that you have observed/participated in while on your IPPE rotation:

compounding (if so, check if IV oral suppositories topical other)

prescription profiling

dispensing of prescriptions

filing of hard copies of prescriptions

processing of controlled drug substances (observation, discussion, or actual processing)

inventory procedures (for regular drugs and controlled substances)

ordering procedures (for regular drugs and controlled substances)

marketing/advertising

public health initiatives (screenings, brown bags, etc)

assistance with OTC medication selection

durable medical equipment

third party insurance issues
